To Donate

Over 99% of your generous tax-deductible donation goes to direct patient services in Nepal. Please go to www.nyayahealth.org/donate or mail a check to Nyaya Health at 135 College St, Suite 323, New Haven, CT 06510.

NYAYA HEALTH

Working with communities to save lives in rural Nepal.

Saving lives ...

Building communities...

Delivering Results

Overview

Nyaya Health is a 501(c)(3) nonprofit organization working to improve the health of poor communities in Nepal.

We are rapidly and effectively developing a locally-driven, accountable health system in the rural, war-affected, and impoverished district of Achham. The district suffers from some of the highest maternal and child mortality rates in South Asia.

Our next goal is to expand services in a hospital we have renovated. The projected five-year cost to achieve this is \$1,200,000. As of July 2009, we have raised \$330,000.

Our Board

Bibhav Acharya, Yale School of Medicine
Bijay Acharya, MBBS, Bronx Hospital
Jason Andrews, MD, Harvard Medical School, Co-Founder
Chhitij Bashyal, Yale University
Sanjay Basu, MD, PHD, UCSF School of Medicine, Co-Founder
Duncan Smith-Rohrberg Maru, MD, PHD, Harvard Medical School, Co-Founder
Shefali Oza, MSc, Bayalpata Hospital, Executive Director
Ryan Schwarz, Yale School of Medicine, Director of Operations
Aditya Sharma, MD, Contra Costa Regional Health Center
Jhapat Bahadur Thapa, MBBS, Bayalpata Hospital, Medical Director

Our Successes

- Treated over 15,000 patients
- Built Achham's only 24-hour delivery center
- Secured a five-year contract with the Nepali government to deliver hospital services
- Hired local medical staff, including a physician and community health workers
- Became the government's vaccine holding site for the local area
- Deployed the region's first ultrasound
- Established the area's first internet connections

Our Goals

- Continue to strengthen local collective action in advocating with government for improved health services
- Renovate the abandoned government hospital in neighboring village of Bayalpata
- Expand primary care and normal delivery services to the hospital
- Build a 14-bed inpatient ward
- Establish blood transfusion capacity
- Expand existing laboratory services
- Expand surgical services
- Develop sustainable energy solutions

What Can Your Dollars Do?

\$50

Pay for the materials and staff for a safe delivery to one woman

\$500

Support one community health worker for one year

\$3,000

Pay the salaries of three midwives for one year

\$15,000

Build the hospital laboratory

\$30,000

Provide equipment and 1-year operating costs of a blood transfusion center

\$65,000

Pay for the capital and 1-yr operating costs of surgical suite

\$170,000

Run the hospital for one year

Over 99% of funds go to patient services in Nepal

Why Donate to Us?

- We save lives in one of the most impoverished communities on earth.
- We empower local community members to take ownership over services.
- Our clinic is run by an all-Nepali staff, which ensures that your money leads to both local health-care and to job creation.
- We have minimal overhead with our all-volunteer staff in the US and Kathmandu.
- We publish transparently online our line-by-line expenditures and program evaluations.
